

## VIP Runtime Read ME:

There is a PC VIP Runtime and for the enlightened, there is also a Mac VIP Runtime.  
© Choose the version that best suits you.

Once you have the folder copied to your desktop, open it. Click on the "OpenMe" file and then in the list of files find the second "OpenMe" this one with a .exe extension. It normally is about half way down the list.

Clicking on the OpenMe.exe file will open the VIP Runtime Application. The login is: level1 and the password is: level1.

You may right click on the .exe file and select make a shortcut for it, placing the shortcut on your desktop. Now all you do is click the shortcut to open the application, no need to go digging for the .exe file.

This Runtime contains sample data you can play with. You can also create your own records Post and Ante and work through to make the ID matches.
